

A+UP Special Support

Our services for special education services should not miss a beat during this time away from school.

<p>Freckle</p>  <p>Freckle[™] by Renaissance[®]</p>	<p>Some of our students have Freckle as their math support during the quarantine. Your Coach or Coach Mac has the log-in information.</p> <p>Login for Students (You need your class code from your coach)</p>
<p>Mathway</p> 	<p>This site lets you plug in a problem and will then give you the steps to solve it.</p> <p>Basic Math 8th Grade Algebra</p> <p>Possible Internal Resource or for parents (do not share with S)</p>
<p>Math Terms</p> 	<p>This website gives students definitions and examples of different math terms.</p> <p>Math Terms & Vocabulary</p>

Because A+UP is closed due to COVID 19, all families are eligible for a free membership to BrainPOP. Fill out this form to receive free, unlimited use of the full BrainPOP suite during the period of closure. You will receive an email with instructions on next steps to set up your account.

[BrainPOP](#)

Enter 77004 for the ZIP Code and “Other” for school. Then write in, A+UP Charter School.

Once done, click “Login” in upper right corner of page.

There are multiple resources for science, reading, social studies, and math.

If you get stuck with learning, go to BrainPOP and enter the topic. You should find a quick video with a video that can help your child.

Phet Simulations is an online science resource. It lets you “see” some different science ideas using examples that you can play with.

CommonLit has over 2,000 high-quality *free* reading passages for grades 3-12, complemented by aligned interim assessments.

Coach Natalia is sending resources to our scholars through Google Classroom. She is able to send assignments that are matched to the learning needs of each scholar.

Actively Learn is another free resource that has a variety of reading texts for our scholars. We are using Actively Learn to give scholars reading materials in literacy and social studies.

Students will be occasionally provided work using Actively Learn.

Parents can also sign up their child as well. It is best if they use the class ID they are currently using for A+UP. That info will be in Google Classroom.

A+UP is using Khan to provide (a) high-quality mini-lessons directly to our scholars. Even though our coaches are great instructors, Khan has professionally-produced videos that are high-quality easy to use.

By using Khan videos, our Learning Coaches can spend their time in small group work and providing high-quality feedback to our learners.
